

Together in your Business

Security.
Safety.
Smart Control.

ProSeries

The Ultimate Security Blanket, Tailored to Fit Your Business

-  World-class security
-  Whole-business safety
-  Smart business control

 Resideo ProSeries

The ProSeries Package

We developed the ProSeries platform, our ultimate professional security system, to bring security, safety and the smart business together in a way that makes it easier to control and grow over time.

As a business owner, nothing matters more than protecting your business and your employees. ProSeries offers professionally installed security and safety products that detect intruders, fire, floods and carbon monoxide. With professional monitoring around the clock, first-responders can be called for help when you need it most.

Along with professional security and life safety, the ProSeries makes your home smarter and allows it to be managed all together from one system. ProSeries products connect your business with touchscreen panels and a built-in Amazon Alexa voice assistant. You can control your security settings, raise and/or lower your thermostat, adjust lighting and much more all with the touch of a button or with a simple voice command.

Just sit back, relax, and let the Pros help you find the right solution so you can focus on what really matters.

When you're away, the Total Connect app ensures you stay in touch with your business. And when you get back, scene setting functions adjust lighting and thermostats automatically when you disarm the system – so you can enjoy a warm welcome.
